Day 14

Reflect over your own language development

My language has been improved and expanded after the trip.

What have you learned on a personal level?

I'm more independent and secure in the choices I'm making. I'm also being more open to other people and their culture.

Have the resident an effect on your personal dreams and plans for the future?

I will maybe work in a different country or international.

Will you recommend others going?

I will one hundred percent recommend others going because you learn a different side to yourself and the people around you. You will make friendships from all over the world and be more confident in yourself and in the choices your make.
