

## Min dagbog Lasse Stendorf.

### *Day 1 & 2*

Yesterday was a long day as we meet all together in Terminal 3 at Copenhagen airport, it was was fun to be at the airport for me because I've never flown before so it was really fun to try when we landed Roma's airport we have to take a small bus to the airport. When we came into the airport, I was very confused I did not know what I was going but we got sorted it and both myself and my suitcases came with sound. We waited for 2 half an hour at the airport for the trip now went 3 hours by bus to the city of Perugia which we will live in, it's a really nice and cozy old town which is really nice. But in the three hours on the bus, I used most to sleep but I saw and a lot of beautiful things and had fun with the other. When we came to Perugia we were a little room first and then we went out and ate some good food and got a small glass of white wine I even got spaghetti carbonara it tasted really good.

Today has been a good day with a lot of new impressions of both the city but also the people. Today we have been out of school we must be in the next two weeks and it was a really good experience they were super sweet but also a little hard to understand. we started to appear a little around the school then we came into a classroom and told a little about the school but also about Italy in general and it was very exciting.

### *Day 3 & 4*

The day started when we took the bus out to the school where we had little knowledge of Italian food, he made both risotto, polenta and pasta with pesto, after it, we took the bus back home just to relax a little.

The next day started the day in the same way as the day before and there were we to learn how to make fresh pasta but after school he went to Gubbio where there was a kind of medieval festival there was really a lot of people and everyone was really happy and a little bit drunk. I talked with an Italian and he told me that it is a day they respect very much and love very much. People really love the day and great fun for me to experience at 21 went to our room again where we ordered some food and otherwise we relaxed just by it had been a really long day.

### *Day 5 & 6*

The day started when we took the bus as usual and today we had to learn how to make fresh pasta. We made Gnocchi, baskets of pasta and ravioli it was mega

spændne to learn when I got so much inspiration to cook at home in the Italian manner. at the same time we also got the know how in Italy the food he made came from.

In Italy they make very traditional food and traditions change much from what area you come from, for example, so you can make three different spaghetti carbonara it depends on where you are from.

When we got home we relaxed most of the time and saw a lot of movies and so on. Finally in the evening we went out and ate some food at a very nice restaurant where we sat outside so it was really nice.

Today started the same way as yesterday we were in school and learned much about Italian food culture and a lot of traditions. then lunch it tasted really good. when we were finished eating we returned to our room again and we relax just by before we go out to dinner tonight After dinner we have to get a beer because it is friday.

### *Day 7 & 8*

The weekend started very late when we woke much as we had the option after it took off and looked at the city at places I had not been it was very cozy and nicely. After that we got out for some food it was just a kebab when we were not as hungry, and then we went out to explore the nightlife.

The following day started again very late when we were very tired or so took days just to be in the room and watch some good movies and keep great Sunday day it really cozy. as had been little more fresh it was time for something to eat and it was just a kebab like the day before.

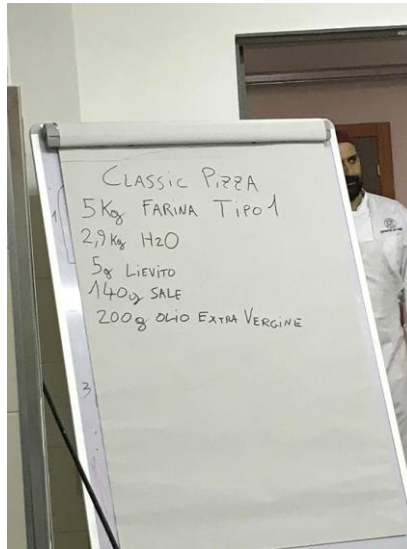

*Day 9 & 10*

Yesterday started when we took the bus from the stop and took out the school where we learn a lot about pizza and just as with the pasta so it is very full of tradition to do and where you come from. He showed us a basic recipe and started making it and we learned the easiest and best way but according to him making pizza at. Then it was lunchtime and there were a lot of nice food pasta and more. After lunch it was on the bus back home and we relaxed for the most part and we had agreed the 12 of us that we would cook something here that's right stood on Mexican pancake with it all it was very nice to cook at home you came each other a little more on and it was very cozy.

Today started much the same as yesterday down to the bus also leaving for school the day again stood on pizza. Today was just a little more active that shaped our own pizzas and choose the fill just as we wanted because it was our lunch today. Ham pizza man also did a lot so there was little more it was very cozy after that, we had free and therefore it was going down the bus and go home. When we got home we were all boys very tired so we put us in a good movie and the others slept and they still do and I also got one hour or 2.

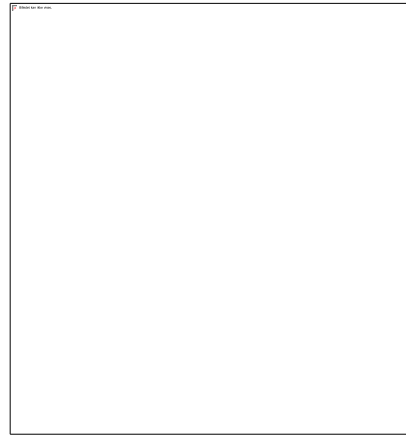

Now we just sit and socialize waiting until we go out and eat as we are 12 who have booked a table for Chinese food and I look forward to this.

### *Day 11 & 12*

Yesterday started when we took the bus as usual and out of the school where we still we started with pizza a week and there was pizza on pizza ala pala it is an oblong pizza and it tasted really good otherwise was a day just to relax and get something to eat out at a restaurant and I got the risotto with mushrooms and it tasted very well after we went out and had a beer and then just heading home to bed.

Today started the day as usual with the bus to school and today stood's pizza on torta al testo which is a kind of pizza sandwich with very different fillings then we relaxed just by and out of the city and eat and have a beer.

*Day*

*13*

*& 14*

*Today*

started the day as usual we took the bus out of school and it was our last day at school so it was little wonder that now knew that when we went from school so puts not his legs again so it was very odd. Today was pizza on foccacia which is again a pizza sandwich but here is salad tomato ham and blended squash and it tasted very good after that we got a document were we proof that we had done well. After that we went home and now we have packed and now we relax just and the last gets packed the last of the missing. Tonight we are going to eat some pizza and get hygget little before we go home tomorrow.

It has been a very bold and educational trip where I personally learned myself much better to know but and learned to be a little more independent. Thank

Lasse Stendorf ZBC Slagelse

Thanks for a good trip

Arrivederci.
