

Sunday we started out meeting a firewood terminal 3 afterwards so that picture we have against Terminal 2 in the offer applies so it went quietly to get through security there were no problems that we all come now when we landed in Rome should we wait for a moment on our bag to find the bus but it went two hours before the bus it appeared so we had two cozy hours outside the front of the airport after we wait to jump on the bus then there were three hours during the bus ride where we ended up sitting and talking and sweet on the phone when someone got to sleep it was also very cozy i would then come to advise that we are down at the bus station when we had to walk for 10 to 15 minutes so we ended up finding the hotel and then there went a little 20 minutes before we had got room in the hotel and then we were out and see how the city it was also looking forward to see how our teaching came to give

Monday we get up at 7am to get breakfast why do we coin early in the school who won so little earlier it was not in relation to what we got used to at home from Denmark because we the second is first meeting 10:30 instead of because 9:30 am when we come we got a round trip is Madeleine who was the inspector or principal of the university we were at and saw a white with in a classroom where they could show about ice to see the understanding of how they see how in knitting strength is made after we had received the information we are more for tastings and then we should have a briefing when we had to note this week about the different pasta dishes and such something found out they were in the italian after we got them finished be told about the different things inside of taking the bus home soon most people are badly returning to the hotel to throw things and afterwards into the city and see what else it has been trying to find out where things are lying to her

Tuesday when we were told yesterday that we first had to meet 10:30 before we all sleep long we will wait to sleep at 8 o'clock. 9 pieces afternoon in school where we ended up with stud with pasta dishes ways you used pasta around Italy which some different kinds of pasta and the bell it just disappeared right now so fast it had become one we must not but I got free so we ended up taking the bus there at 2 o'clock to return home with Hotel we with to jump out into the city and also see a little more about looking at which places we were going to eat later during the week or what we were feeling and it was smashed quickly evening how many employees at eating at home

Wednesday you know if it is 9 o'clock we must sing with breakfast we were not particularly happy because breakfast came out of a small yogurt and some fruit coffee and tea and a small biscuit waiting to jump with the bus at 10am being out at school 10:30 dressed and ready for teaching we

ended up learning more about different ways we used to watch so i got some kind of dishes we one with all the different regions is Italy what time has disappeared Frederiksberg so soon again the internet became the clock was 1 where we ended up getting something okay good lunch and then have to bus home again at 2am and then we are again more to be trained at the hotel and afterwards out and look around the city how many times have you found ice cream there in the evening because it was a hell of a good ice much better than what we at home

Thursday when we got more about fresh pasta and in the relationship still have to make the different pasta dishes here and we ended up learning about dishes from the middle of Italy and down to the south of Italy we review Friday at 1am again and got some lunch and a lot of dirt home again It is 2 o'clock we were then afterwards one out in the hotel where there was someone going out and giving around the city and got something ice cream already around because we did not always know we should do with all the free time we had

We were also in Umbria where there was a festival going on as we were to see if our specialty exciting there has been a whole lot in the city where the excitement continued to rise until they had to pick up their Rees up and running. should have a big heavy seemingly light things out of wood that weigh a whole lot as they then had to run through the city with where they looked up at the top of the mountain on the target it was taking in almost 40 minutes from the center of the city up to the top so that has happened today It is something down in the city since the people who have gone more shaved so we ended up taking home at 8am where there was 45 minutes driving

Friday we all ended up getting up It's 9 o'clock informing them at the station at 10 o'clock we have the bus to school where we learn the last in pasta a weekend we are all looking forward to having a weekend where we do not Had something so we ended up finding a restaurant or were around town when we came back

During the weekend, not much happened to me at least, mostly because I was a man who was right in front of him who just needed a little bit but otherwise it smashed cozy

Monday when I met up there again at 10:30 in the school and where we sailed I had to have pizza 1. The day before we talk about the corn and how to make a good pizza dough or the classic pizza dough and some technique on how there in the export roll pizza dough out with your hands and then we can eat our own pizza and if i no longer so again and then home there at 2 o'clock that again we

had nothing if i do so just waiting to go around the city To do nothing found something to eat or something to eat at home in the hotel and got a lot of cozy out of the evening

Tuesday when I learned that my other kind of step you must have a square pizza where there was a little more no but it was so little with bottom that more oil is used in this way become a little more thicker there slightly airier but it was square instead of the classic round shape such a square you get more on the lunch box the other we take care of to make them also go to something we know of home at 2 o'clock to make the things we just want where is there So, not really done anything ananda funny jokes made

Wednesday one more to learn about a new dough where we have been looking forward to something in pita bread but so it was just a pizza bottom which we ended up having to go to fullness in i can't remember what he called it but it was very normal being able to find around in perugia dementia having eaten a whole day also gives very good It was more what we recycle sandwiches but good it was but then one got one more for the home that is 2 o'clock with the bus one can well at home with what we just want to go again It pleases me very easy and coziness talked about getting to know the others a little better

Thursday when we met at school we should have age we were allowed to make the dough ourselves so we had to make sure that all the ingredients and in relation to the order you had to stop where we ended up doing something other than pizza summers Margot it just healed but as he keeps getting free again It is 1 o'clock and we had eaten some of the pizza we had made and home to 2 o'clock how many are so eating because it was an almost also last night because we had to go home on Saturday so it ended up having something to touch fun desist

Friday wait with stop for the same time as we had done the last 14 days why show her with meeting at school and wait to make some more pizza now if we had to make you again and after we finished making pizza you want a diploma ceremony compared to having passed our little trip the fresh school edad so we had a lot of fun with from the one to pronounce our name is because we have a little extra on letters in our alphabet so we no longer take up from there at 3 time so should we had fun at the hotel buy the things we just had to bring home I ended up buying 6 liters of oil with home It was when we got the day to go and get packed a little together for Saturday morning where we had to go

Saturday the day of return we and most at 7 o'clock but I will probably get up at 6 o'clock because I just had to go in before we had to leave but we were all there at 7 o'clock because we had something at the bus station at 8 o'clock where we were going with the bus back to Rome's airport so we could take the plane to Denmark there were not especially any problems during a bus trip most of the people just sleep just relax because we didn't have to reach so much when we got to the airport it was quicker to check there was nothing special had bought some of the last things in before we had to board the plane waiting for countries in Copenhagen to be really tired and just want home so we were actually pretty good life found out to float and we did not take anyone who had lost anything on the way that i had been gifts super happy for the whole trip i would definitely recommend it to others
